

Mahidol University

No. 0517.22/402

12 March 2019

Dear Principal/Head of School

Subject: The Student Science Training Program 2019 – Call for Registration

The Institute of Molecular Biosciences, Mahidol University organises **the Student Science Training Program 2019 (SSTP 2019)**, which is suitable for students aged 14-18 (Upper Secondary, Grades 9-12, Years 10-13) who are interested in advancing their scientific knowledge and skills in molecular biology, neuroscience and chemistry. The 10-day program, which will be held on 1–12 July 2019 at the Institute of Molecular Biosciences, Mahidol University in Salaya, Nakhon Pathom, offers a variety of lectures, laboratory exercises and related activities where the students can carry out hands-on experiments like a real scientist in a manner that encourages team working and independent problem solving skills. The language of instruction and communication is English. Moreover, arrangements for SSTP participants and alumni, who are keen to further their interests in carrying out research projects or to gain research experience with members of our academic staff in the future, can be done through internships.

Registration is open online at <http://www.mb.mahidol.ac.th/SSTP2019> until 7 June 2019. Early bird registrations are entitled to a 5% discount for full payment of 28,500 Baht upon registration by 3 May 2019. The standard fee of 30,000 Baht applies otherwise. Registrations are accepted when full payment or a non-refundable deposit of 5,000 Baht is made by bank transfer (please see the online registration form for bank account details).

Please refer to the attached schedule for details of the lectures, experiments and other activities offered. For further information, please contact Ms Kaewklao Banjong, International Relations Officer at Kaewklao.ban@mahidol.ac.th

We would very much appreciate if you could help circulate the call within your institution and to those relevant or interested in attending the SSTP 2019.

Sincerely yours

A handwritten signature in blue ink that reads "Apinunt Udomkit".

Associate Professor Apinunt Udomkit, Ph.D.

Acting Director of the Institute of Molecular Biosciences
